SUMMARY

Full-Stack Software Developer and Graphic Designer with expertise in ASP.NET Core, C#, .NET, Entity Framework Core, MSSQL, JavaScript, Tailwind CSS, and Bootstrap. Experienced in developing business systems, REST APIs, automation tools, and modern user interfaces with a focus on creating efficient, scalable, and user-friendly digital solutions.

WORK EXPERIENCE

Megalight (Programmer / Graphic Designer) **March 2021 - March 2026**

- Developed and maintained a custom Inventory Management System (IMS) that has supported daily business operations for 5+ years.
- Created high-impact marketing materials and social media campaigns that improved online engagement and strengthened brand visibility.
- Automated manual business processes, reducing operational workload and improving efficiency.
- Delivered reliable, maintainable software solutions that continued to support the company's growth over multiple years.

Globalinens **January 2020 - February 2021**

- Built and deployed a custom internal business system that streamlined operations and remained in use for 3 years.
- Designed and optimized over 200+ e-commerce product listings and promotional graphics for Shopee and Lazada.
- Helped grow the Home de Luxe Shopee Store from ~2K to 150K+ followers through effective branding, product presentation, and digital content.
- Developed the company's website and created consistent branding assets across multiple digital platforms.

EDUCATION

Bachelor of Science Information Technology **Aug 2015 - Oct 2019**
STI College Caloocan

- Major in Digital Arts
- 2nd Place – Best Thesis Award | Restart (Short Film on Computer Addiction)

San Roque National High School **May 2010 - May 2014**
Engineering University

- Completed secondary education with a focus on Information Technology fundamentals.
