EXPERIENCE

Megalight Philippines | Programmer / Graphic Designer

March 2021 - March 2026

- Developed and maintained an inventory management system used in daily operations for over five years, covering inventory, delivery receipts, and reporting.
- Implemented business workflows with ASP.NET Core, Entity Framework Core, and MySQL, including receipt editing, archive workflows, and permission-controlled access.
- Maintained validation for receipt line items and existing record details. Also created product graphics and marketing materials.

Globalinens Worldwide Inc. | Systems, E-commerce & Design

January 2020 - February 2021

- Built and deployed an internal business system that remained in use for three years.
- Managed over 200 product listings and created visual assets for e-commerce and marketing.

SELECTED PROJECTS

Megalight IMS | ASP.NET Core, EF Core, MySQL

Inventory and operational workflows with permission checks and delivery receipt management. Focused xUnit tests cover invalid line-item edits and preservation of existing record details.

Portfolio CMS | ASP.NET Core, React, Vite, SQLite

Built a CMS with authenticated administration, published content APIs, contact inquiries, and anonymous traffic analytics. The React frontend consumes the CMS API.

Nexpak Packaging | Next.js, TypeScript, Tailwind CSS

Developed a packaging business website with responsive product and service pages. thenexpak.com | GitHub repository
